

# Porci's Ocean Patrol Activity Sheet

---

## Plastic Pollution - Comprehension Solutions (level 2)

1. How much plastic is estimated to enter our oceans every year?

**It is estimated that up to 12 million tonnes of plastic enters our oceans every year.**

2. What percentage of rubbish that enters our oceans comes from everyday items that we use on land?

**80% of that rubbish comes from everyday items on land**

3. Circle the correct answer. After everyday items that we use on land, what is the second largest contributor of rubbish to our oceans:

**(b) fishing and shipping**

4. List some of the ways in which rubbish can travel from land to the ocean:

**Wind and animals can carry rubbish to the beach**

**Or**

**Rubbish can travel down drains and rivers**

5. What are some things that were listed that you can do to help with the rubbish problem?

**Say NO to single use plastics, use eco friendly and reusable alternatives and always pick up litter whenever you see it.**
