Cloze Activity Solutions (level 2)

Sea Country – Fishing

Many years ago, there were different options when it came to fishing, this included using a spear, catching fish with your **BARE** hands, or using animal **BONES** as a hook. Reeds are a **TALL** plant that you might find along the water, and these can be used to form fishing **LINE**. A reed that is commonly used is the Knobby Club Rush Reed or also known as the **BULL** Rush Reed. These reeds are **TWISTED** together to form a sturdy and **STRONG** string to be used as finishing line. These reeds were also used for bindings on **SHELTERS** and even as fasteners for clothing.
