

Stingrays Comprehension Solutions (level 2)

1. Circle the correct answer. Stingrays prefer to:

(b) swim away when feeling threatened

2. Smooth stingrays can grow up to?

(a) 4.3 metres in length

3. When feeding and resting what do stingrays do to protect themselves?

Stingrays bury their bodies in the sand but leave their barb sticking out to protect themselves from predators.

4. If you ever come across a stingray when swimming, what should you do?

Always treat them with respect. Never try to touch them. Do the 'stingray shuffle', which is to keep your feet on the ground and slowly slide away. Rays can feel vibration, and this will give them the chance to swim away.

5. List 3 interesting facts about stingrays.
