

# Porci's Ocean Patrol Activity Sheet

## Aboriginal Culture – Sugar Lerps Cloze Activity (level 2)

Using the words in the boxes, fill in the blank spaces to complete the sentences.

crystallised	excrete	lollipops	honeydew	shapes
Aboriginal	eucalyptus	nature	Psyllid	

'Sugar Lerps' come from mother \_\_\_\_\_ and are a natural type of sweet. These are nature's version of \_\_\_\_\_.! Lerps have long been a naturally sweet treat eaten by \_\_\_\_\_ groups.

\_\_\_\_\_ bugs create the Sugar Lerps. The bugs chew on leaves, then \_\_\_\_\_ a sugary substance, called 'honeydew'. Sugar Lerps are tiny, \_\_\_\_\_ drops of honeydew, which are found on leaves from certain \_\_\_\_\_ and gum trees. They taste like \_\_\_\_\_ and have a waxy texture when chewed on.

Depending on the bug that made them, Lerps can come in all \_\_\_\_\_ and sizes.

**Name:** \_\_\_\_\_
