- When feeding and resting, **stingrays** bury their bodies in the sand but leave their **barb** sticking out to protect themselves from predators.
- 'Sugar **Lerps**' come from mother nature and are a natural type of sweet. These are nature's version of **lollipops!**
- If you ever come across a stingray, always treat them with **respect**.
- As well as protecting tiny creatures, **shells** are very important in other ways.
- Remember – it is up to all of us to look after our beautiful **beaches**.
- Our local beaches should '**sparkle** with natural beauty', not **rubbish**. It is everyone's responsibility to keep our beaches **clean**.
